Priya Raman

Software Engineer

+91 98765 01234 | priya.raman@example.com | Pune, India | linkedin.com/in/priya-raman-example | github.com/priya-raman-example

Summary

Software engineer with three years of experience building web applications and internal tools. Comfortable across the stack, from React interfaces to Python services and SQL databases. Enjoys turning manual processes into reliable software.

Experience

Software Engineer Jun 2023 to Present
Ledgerline Fintech *Pune, India*

- Worked on the customer support dashboard used by 40 support agents, built with React and a Flask REST API.
- Added a ticket summarization feature using the OpenAI API that cut average handling time by 18%.
- Moved nightly reconciliation jobs from cron scripts to AWS Lambda, reducing failed runs from 12 to 1 per month.
- Wrote pytest suites for the payments service, raising coverage from 41% to 78%.
- Helped onboard two new engineers and reviewed pull requests for the team.

Associate Developer Jul 2021 to May 2023
Brightpath Learning *Bengaluru, India*

- Built course management pages in Django and PostgreSQL for 25,000 monthly learners.
- Created a Redis cache for the course catalog, cutting page load time from 2.1s to 0.6s.
- Fixed accessibility issues found in an audit, including keyboard navigation and form labels.
- Took part in daily Scrum stand-ups and sprint planning.

Projects

DocSearch github.com/priya-raman-example/docsearch

- Built a semantic search tool over 3,000 internal PDFs using Hugging Face sentence embeddings and a FAISS index.
- Wrapped it in a small FastAPI service with a React front end.

Technical Skills

Languages: Python, JavaScript, TypeScript, SQL

Frameworks: React, Django, Flask, Express

Data & Cloud: PostgreSQL, Redis, AWS (EC2, S3, Lambda), Docker

AI: OpenAI API, Hugging Face, pandas, scikit-learn

Practices: Git, pytest, Jest, Scrum, Code review

Education

College of Engineering Pune 2017 to 2021

B.Tech, Computer Engineering *Pune, India*

- CGPA 8.4/10

Certifications

- AWS Certified Cloud Practitioner (2022)
